

DEEP EXFOLIATING MITT

VISIBLY REMOVES DEAD SKIN INSTANTLY

Made with a unique fabric texture, the mitt visibly removes surface layers of build up and dead skin instantly. The mitt catches and sloughs off dead cells by simply rolling it off your skin. Reveal your healthy and smooth skin underneath.

DEEP CLEAN

Removes layers of dead skin instantly

GLOW

Helps even skin tone and prevents dullness, giving your skin a beautiful, soft glow

SMOOTH

Smooths skin surface for even tanning and self-tanning products

STIMULATE

Improves circulation, stimulates collagen and fights aging

UNCLOG

Reduces ingrown hairs, bumps and clogged pores

ABSORB

Helps to absorb skincare products more effectively

GLAMOUR

“Our skin has never felt softer — seriously, we could not stop touching it”

THE SUNDAY TIMES

“When it comes to a buff and polish, it’s pretty unbeatable.”

NEWBEAUTY

“This Exfoliating Mitt Works Better Than Any Body Scrub”

ESSENCE

“This mitt is a genius exfoliator.”

VOGUE

“Render your skin baby soft.”

DEEP EXFOLIATING MITT

NO MORE DAILY BUFFING...

...USE EVERY TWO WEEKS

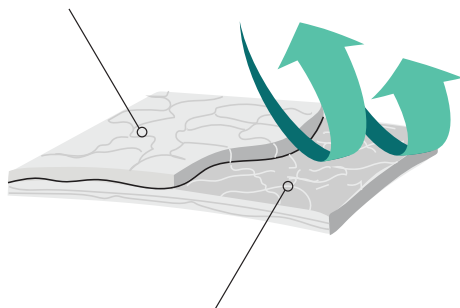

HOW TO USE THE MITT

For optimal results (i.e., visibly see dead skin cells), follow instructions exactly.

- 1 **Soften your skin with water only** - Go into the shower, bath or steam for 5-10 minutes. Do not apply any soaps or lotions to the body. The fabric relies on friction. Soaps and lotions create a film which makes the skin surface too slippery for the fabric to grab the skin.
- 2 **Step away from water** - Turn off the shower and squeeze away excess water from the mitt, leaving the mitt slightly damp.
- 3 **Removes layers of dead skin** - Exfoliate using vigorous, upward and downward strokes until you see dead skin cells roll away. Repeat for each section of your body. Apply pressure for optimal results.
- 4 **Moisturize** - After you step out of the shower, use your favorite lotion or oil, and notice it will be absorbed much better than before.
