PRODUCT STORY—Premium Collection

Get gorgeous results just the way you like it! This specially formulated Triple Dip Hybrid Intensifier can give you straight-from-the-beach color whatever way you choose to achieve it. Continuous Color Cocktail provides intense moisture to ensure gorgeous color lasts for days! Red Light Collagen Boost delivers unbelievable skincare to help smooth and tone, while deluxe Bio-Active Bronzing Minerals strengthen and soften for touchable, sleek skin. Fuel your wanderlust with **Endless Vacation™**!

COLOR TECHNOLOGY

Triple Dip Hybrid Intensifier: Unique silicone-free formulation of Tyrosine and Erythulose to provide a natural, uniform glow that lasts days longer while ensuring sunless application is flawless and even.

DermaDark® Bronzer: Powerful natural color enhancer that helps build color gradually without the need of UV exposure.

SKINCARE TECHNOLOGY

Continuous Color Cocktail: Deluxe blend of Meadowfoam Seed Oil, Coconut Oil, Shea Butter and Cocoa Butter help to hydrate, seal-in moisture and brighten the complexion while ensuring quick-absorption for even, flawless coverage.

Red Light Collagen Boost: Superior skincare, including Peptides, help to boost collagen and elastin production for overall smoother skin, especially when used in conjunction with a Red Light Treatment plan.

Bio-Active Bronzing Minerals: Naturally obtained from Sea Salt, this mineral cocktail of 92 essential minerals help rejuvenate and smooth skin; Copper, Zinc and Calcium are known as melanin enhancing trace elements that have been shown to help enhance the delivery of minerals, increase the amount of melanin formed and add additional support for color activity.

Flawless Finish: Natural polymer of corn starch, acts as a spreading and lubricating agent for the skin, giving it a soft, even matte finish.

Soft Scent After Tan Inhibitor: Proprietary odor inhibiting ingredient is clinically proven to stabilize pH of the skin and inhibit irritation and unpleasant odors while providing moisturization, skin softening and refining skin pores.

AVAILABLE SIZES

10oz Tube | .5oz Packette

ADDITIONAL INFORMATION
