SKINCARE TECHNOLOGY

Passionfruit and Papaya Blend: This yummy blend is a great source of fatty acids, nutrients, polyphenols and vitamins to help support and improve the skin barrier. The polyphenols of Passion Fruit exhibit strong antioxidant properties. Papaya contains Magnesium and Calcium for ultra-moisturization.

DermaDark® Bronzer: Natural color enhancer that provides streak-free color; also builds color gradually with daily use even without UV exposure.

Hydrating Complex: Pure Hemp Seed Oil is blended with Moisture Melt and Silicone to allow for easy spreadability and fast absorption. This combination helps to strengthen skin and prevent water loss by forming a hydrating barrier to the skin for longer lasting moisturization.

Age Defying Blend: Super fusion of Vitamins A, B3, and E aid in protecting against external aggressors, assists in balancing uneven skin tone, and helps to protect skin from harmful environmental pollutants. Soft Focus Microspheres are small particles that impart a silky texture to the lotion and provide skin blurring effects that help diminish the appearance of fine lines and wrinkles.
