SKINCARE TECHNOLOGY

Coconut and Orange Fruit Blend: This blend is an excellent source of vitamins, vital nutrients, flavonoids and polyphenols. Coconut is known to contain high levels of essential electrolytes that help hydrate and restore the skin's moisture balance. Oranges contain high levels of Vitamin C and are known to have antioxidant properties that help protect skin from environmental stressors, while helping to maintain general skin health to support more youthful and vibrant looking skin.

DermaDark® Bronzer: Natural color enhancer that provides quick, streak-free color; also builds color gradually with daily use even without UV exposure.

Hydrating Complex: Pure Hemp Seed Oil is blended with Moisture Melt and Silicone to allow for easy spreadability and fast absorption, while helping to strengthen skin and prevent water loss by forming a hydrating barrier to the skin for longer lasting moisturization.

Age Defying Blend: Super fusion of Vitamins A, B3, and E aid in protecting against external aggressors, assists in balancing uneven skin tone, and help to protect skin from harmful environmental pollutants. Soft Focus Microspheres are small particles that impart a silky texture to the lotion and provide skin blurring effects that help diminish the appearance of fine lines and wrinkles.
