PRODUCT STORY—Premium Collection

Draw your focus to **Magnetize™**, a dual-use product that helps enhance color and the effects of Red Light Treatment. This 25th Dimension Hybrid Dark Bronzer blends Coconut Oil and bronzers for an enticing complexion – attracting only the finest. Red Light Effects compels the formation of Elastin and Collagen, helping diminish the look of fine lines and wrinkles. Exquisite Skincare Blend unites Marshmallow Root and Collagen, pulling moisture to the skin keeping it hydrated and encouraging skin tonicity. Attract the attention you want with **Magnetize™!**

COLOR TECHNOLOGY

25th Dimension Hybrid Dark Bronzer: Specially designed bronzing complex with Annatto, Caramel, Black Walnut, Melanin, Henna and Tyrosine that work to give uniform instant color and a boost of color development that continues to develop over time.

SKINCARE TECHNOLOGY

Exquisite Skincare Blend: Caramel deposits a rich hue on the skin while DHA and Erythrulose continues to develop. Other Natural Bronzers and Tan Enhancers in this blend such as Algotan, Black Walnut Shell, Annatto and Maka increase melanin for consistent, darker color.

Red Light Effects: Rich in amino acids, this blend encourages Collagen and Elastin production to help provide support to the skin, improve smoothness and reduce the appearance of fine lines and wrinkles when used in conjunction with Red Light Treatment.

Bio-Active Bronzing Minerals: Naturally obtained from Sea Salt, this mineral cocktail of 92 essential minerals help rejuvenate and smooth skin; Copper, Zinc and Calcium are known as melanin enhancing trace elements that have been shown to help enhance the delivery of minerals, increase the amount of melanin formed and add additional support for color activity.

Flawless Finish: Natural polymer of Corn Starch, acts as a spreading and lubricating agent for the skin, giving it a soft, even matte finish.

Soft Scent After Tan Inhibitor: Proprietary odor inhibiting ingredient is clinically proven to stabilize the skin's pH, inhibit irritation and unpleasant odors while providing moisturization, skin softening and refining skin pores.

AVAILABLE SIZES

10oz Tube | .5oz Packette

ADDITIONAL INFORMATION

Magnetize™ is our first Red Light lotion with DHA. This lotion is perfect for tanners who are looking for a luxury hybrid lotion.
