LINE STORY

Experience The Sexy Side of Sunless® with the Color Rich Collection. Develop flawless color with high-end ingredients for a gorgeous tan and flawless skin!

SKINCARE TECHNOLOGY

Silicone: Acts as a powerful line of defense against sunless solution absorption by coating skin like a glove, creating a smooth, even barrier.

Safflower Oil: Adds an additional layer of protection, while also ensuring skin stays moisturized for soft, supple skin.

Shea Butter: Is a skin conditioning ingredient that is well-known for its skin smoothing properties. It helps protect and restore skin and is especially good for dry and sensitive skin types.

Organic Aloe Vera: Soothes, restores, and moisturizes skin for longer-lasting color. Aloe Vera also contains antioxidants to help fight signs of aging.

Red Tea: Contains 50% more antioxidants than green tea for more youthful looking skin. Naturally contains alpha-hydroxy acid and zinc, promoting healthier looking skin. Known to have soothing properties.
