LINE STORY

A true breakthrough in tanning technology that builds dark, never-before-seen color by unlocking the proteins in essential to the coloration of melanin with **D-Cýphêr™ Complex**.

COLOR TECHNOLOGY

Base Tan Builder: Tyrosine, helps to stimulate melanin production, while a Melanin Activated Peptide (MAP) helps give an added color boost by stimulating the synthesis and activity of Tyrosinase during the tanning process for a longer-lasting bronze glow. Banana Extract contains dopamine, which is a melanin precursor, and is known to help increase melanin production in the melanocytes for amazing color results.

D-Cýphêr® Complex: Builds deeper color by unlocking the proteins essential to boosting the production of melanin for the darkest color possible.

Titanium [22] Complex: Contains distinct ingredients that work with UVA and UVB rays specifically to obtain maximum tanning benefits. Arugula provides key compounds to the skin and works with the UVB rays to build deeper color, while Angelica Root and Bitter Orange work with UVA rays to achieve enhanced better results.

Vitatan®: Contains an exclusive combination of vitamins, minerals, and antioxidants to accelerate color development. This blend moisturizes and energizes the skin so that it can rapidly build a base tan

SKINCARE TECHNOLOGY

Cell Speak: An age-defying code that supports optimum skin rejuvenation while boosting the skin barrier integrity allowing for more radiant skin.

Youth Boost: Scientific blend that addresses the signs of aging by working to help reduce the appearance of fine lines and wrinkles, helping improve skin elasticity, and utilizing ultra-ingredients to reveal a youthful complexion.

Soothing Skincare: Calming combination of natural ingredients provide powerful antioxidants to the skin which help nourish, soothe, and condition for a smooth tanning canvas.

Cocoa Extract: Helps protect against oxidative damage, helps promote healthier looking skin, and has a toning effect to skin.

AVAILABLE SIZES

6.8oz Bottle | .5oz Packette

ADDITIONAL INFORMATION

This luxurious intensifier formula is a great base builder and works perfectly when rotated with the **Cýphêr** Titanium Optimizer to take your color to the next level.
