LINE STORY

A true breakthrough in tanning technology that builds dark, never-before-seen color by unlocking the proteins essential to the coloration of melanin with **D-Cýphêr™ Complex**.

COLOR TECHNOLOGY

Vitatan®: Contains an exclusive combination of vitamins, minerals and antioxidants to accelerate color development. This blend moisturizes and energizes the skin so that it can rapidly build a base tan.

D-Cýphêr® Complex: Builds deeper color by unlocking the proteins essential to boosting the production of melanin for the darkest color possible.

SKINCARE TECHNOLOGY

Cell Speak: An age-defying code that supports optimum skin rejuvenation while repairing the skin barrier integrity allowing for more radiant skin.

Youth Boost: Scientific blend that addresses the signs of aging by working to help reduce the appearance of fine lines and wrinkles, helping improve skin elasticity, and utilizing ultra-ingredients to reveal a youthful complexion.

CT-Protect™: Moisturizes to help maintain skin's youthful appearance and contains antioxidants which are known to help protect from free radicals.

Ginseng: Known for its rejuvenating properties, Ginseng helps to improve overall skin condition and promote collagen synthesis for a more youthful appearance.

In2Cell Technology: Nourish skin with In2Cell, a blend that represents a complete nature-mimetic antioxidant system that helps achieve a youthful appearance while also imparting actives that improve overall skin tone.
