### LINE STORY

Experience The Sexy Side of Sunless® with the Color Rich Collection. Develop flawless color with high-end ingredients for a gorgeous tan and flawless skin!

### COLOR TECHNOLOGY

**Proteins and Carbohydrates:** DHA reacts with Proteins to create sunless color, therefore, by increasing the amount of Proteins on the skin darker sunless color can be achieved. Carbohydrates strengthen the proteins' abilities by energizing the skin to prime your skin for a darker sunless DHA tan.

### SKINCARE TECHNOLOGY

**Organic Botanical Blend:** Contains a combination of nutrient-rich organic ingredients that help skin look and feel healthy. Organic Spinach packs high amounts of Vitamin A, Vitamin C, Vitamin K, Potassium, Magnesium, Iron, and Calcium. Organic Cranberry contains a particularly large quantity of antioxidants to help combat free radicals. Organic Blueberry provides one of the highest nutrient and vitamin contents among all berries.

**Organic Aloe Base:** Contains more than 200 biologically active amino acids, vitamins, antioxidants, minerals, enzymes, and sterols. It also has soothing and moisturizing properties.

**Caffeine:** Helps tone and energize for flawless looking skin.

**Glycerin:** A natural humectant that attracts and locks in water to the outer layer of the skin. This extra burst of hydration is fundamental to the priming steps of a sunless tan.
