## PRODUCT STORY—*X Collection*

In a world of ordinary, be a wonder! Awaken your senses and experience superior dark results with the enhanced 65X Invincible Bronzer for the ultimate gorgeous color. There is more than meets the eye with the Encapsulated Charcoal Beads for a revitalizing burst of purity. Others will marvel at your flawless finish with the Hero Contour Complex and Super-3 Silicone Technology. Embrace your inner superhero and remember, with great power comes great color!

## COLOR TECHNOLOGY

**Enhanced 65X Invincible Bronzer:** Designer Skin's powerful combination of instant and enhanced delayed bronzing ingredients deliver results immediately upon application with long lasting color that continues to build while tanning.

- **Bronze Wonder Elixir:** Features a high level of custom blended DHA plus a powerful combination of moisture locking agents. The fusion works together to deliver streak-free, stunning gradual build color, while keeping skin hydrated for longer lasting results.
- **Caramel + Deep Hues:** Deliver instant results on application, changing hue and shade to visibly darken and bronze skin with deep, universally flattering color.

## SKINCARE TECHNOLOGY

**Encapsulated Charcoal Beads:** Bursting beads filled with potent Activated Charcoal help to revitalize and clarify skin.

- **Activated Charcoal:** A pure form of carbon that has been refined to help absorb contaminants, pollutants, and environmental toxins that can clog pores and leave skin looking dull. The level of Activated Charcoal has been specially tailored to offer the perfect boost of purity as it works to instantly draw out pore-clogging dirt and oils to help clarify the complexion.
- **Encapsulated Charcoal Beads:** By enclosing Charcoal in beads, the ingredient is protected to help enhance its effectiveness upon release with improved ingredient performance and potency. As beads are applied to skin, they burst with the full benefits of revitalizing Charcoal.

**Hero Contour Complex:** Formulated with Garcinia, a fruit high in antioxidants, this exotic botanical naturally produces an abundant ingredient renowned for its ability to help in the process of breaking down fats. The complex aids in accelerating skin's natural ability to tone and define for a sculpted look.

**Super-3 Silicone Technology:** Combines 3 different silicones to provide triple moisturizing power for prolonged color, while feeling lightweight and allowing skin to breathe. Formulated to leave skin feeling silky, while providing optical blurring for a flawless finish.

## AVAILABLE SIZES

13.5oz Bottle | .5oz Packette
