PRODUCT STORY

Lights, Camera, Action! Get red carpet ready with your new favorite Special Occasion Bronzer. This high DHA lotion gives you the golden glow you desire for any event night. With Bronze Skin Set Technology, you won't have to worry about any bronzer transfer on your premiere outfit. Make your Debut and ensure you're the star of the show!

COLOR TECHNOLOGY

Special Occasion Bronzer[™]: DHA and Erythrulose combine to provide delayed, dark color that ensures you have your best tan for any event. Caramel and Violet provide the gratification of instant color for fast results. Black Tea is known to contain a melanin-like pigment to provide a natural boost to optimize your tan and leaving you with flawless results.

SKINCARE TECHNOLOGY

C3 Tanning Tonic: Caffeine helps to tone the skin while also providing excellent antioxidant properties. Champagne assists in protecting the skin from environmental stressors for more youthful and vibrant skin. Copper is known to boost color development by supporting bronzing activity during the process of melanin synthesis.

Bronze Skin Set: Transfer resistant technology that is designed to allow instant color to not transfer on to or stain clothes.

Blurfecting Technology: A skincare technology specifically designed to help fill creases, instantly diminish the appearance of fine lines and wrinkles, and plump skin from the inside out.

Luxurious Fascination: Wrap yourself in this silicone-bliss formula for smooth, flawless skin. This is designed to be easily spread on the skin, non-greasy, while leaving a luxurious feel.

AVAILABLE SIZES

8.5oz Bottle | .5oz Packette

ADDITIONAL INFORMATION

Debut uses Witch Hazel as an ATO inhibitor to keep you smelling fresh throughout any event!
