COLOR TECHNOLOGY

Brilliance Color Guide: Delivers an instant deep bronze with dark violet hues for immediate results. The instant bronzers create a bronzing guide for even application and flawless sunless development.

DS ProBronze Extend™: Features a proprietary blend of Erythrulose and DHA to provide darker, more even coverage, with faster and longer lasting results.

Fine Mist Spray: The ultra-fine mist allows for perfectly buildable color, while the 360° Mist can be sprayed at any angle for easy use and controlled results.

SKINCARE TECHNOLOGY

Dry Touch Technology: Designed to be fast absorbing with a lightweight feel and natural finish. The technology provides a fast dry time, helping to rapidly deliver active ingredients and moisturize skin without a tacky after feel.

Pure Caffeine: Re-energizes the skin to help promote a more sculpted and radiant appearance.

Coffee Seed: Helps bring vitality and life to skin. Coffee Seed extract contains a potent antioxidant that is known for its ability as a free radical scavenger.
