COLOR TECHNOLOGY

Intensifier: Helps build natural color while it nourishes and guides color development.

- **Tyrosine:** Helps to stimulate UV melanin production in an even manner for dark color development.
- **Complexion Perfecting Blend:** A blend of amino acids and extracts that work to energize skin to kickstart color for balanced, glowing results.

SKINCARE TECHNOLOGY

Sunspot Corrector: Specially formulated to help ensure an even tan by working to reduce the appearance of sunspots for a balanced complexion.

- **Tea Tree Oil:** Known for its ability to fight topical infections and irritations, it works together with other powerful ingredients to help eliminate the appearance of sunspots.
- **Ginger:** Believed to have been cultivated as a tonic root, it helps to keep skin naturally uninhibited, allowing even, balanced color to develop without interference.

Superfood Colada Complex: A rich source of nourishing supplements and plant derived vitamins for glowing, youthful results.

- **Avocado:** Known for its high levels of omegas, which help skin maintain its flexibility for younger looking skin.
- **Kiwi Fruit:** A vast reservoir of vitamins and minerals, dominant in Vitamin C that works to visibly rejuvenate skin.
- **Acai:** Known for its powerful blend of antioxidants, which aids skin in maintaining a youthful appearance.
