

Hot Tingle DHA Bronzer | Intense Moisture Blend | Ink-Drink™ Complex

## FEATURES

- Beta Carotene
- Vitamins A & E
- Pomegranate Extract
- DHA & Natural Bronzers
- Fragrance: Blazing Berry – Sparkling Strawberry, Melon, Green Apple, Rose, Musk & Spun Sugar

## PRODUCT STORY

Summers in Jersey bring more than just heat, they bring a great tan! Jersey Heat Complex ignites a fiery sensation on the skin, increasing oxygen and giving intensely darker tanning results. Offshore Bronzing Blend sparks instant color while DHA gradually develops. Ink-Drink™ Complex keeps tattoos from fading under the sun while Intense Moisture Blend combines hydrating ingredients for smooth skin. Come to the boardwalk and feel the Jersey Heat™!

*"I'm so excited to bring back a tingle in my collection! Now everyone can experience the Jersey Heat. Xoxo"*  
**JWOWW – Jenni Farley**

## COLOR TECHNOLOGY

**Jersey Heat Tingle Complex:** This high tingle lotion imparts a sensation of heat by increasing oxygen and causing the skin to flush, leading to a deeper tan.

## SKINCARE TECHNOLOGY

**Off shore Bronzing Blend:** Caramel provides instant color to the skin, while DHA gradually develops for a darker complexion that looks like you just got off the beach. Beta Carotene is an antioxidant that helps enhance color development.

**Pomegranate Extract:** Contains powerful antioxidants and provides excellent moisturizing and soothing properties.

**Ink-Drink™ Complex:** Shea Butter, rich in Vitamin A and E, helps neutralize free radicals while also softening and moisturizing skin. Raspberry protects the brilliance of tattoos by reducing tattoo color damage. Beeswax provides soothing and smoothing benefits.

**Intense Moisture Blend:** Powerful combination of a humectant and emollients that help draw and seal in moisture for deep and sustained moisturization, helping to give a smooth, silky feel, allowing color development to last days longer.

## AVAILABLE SIZES

13.5oz Bottle | .5oz Packette

## ADDITIONAL INFORMATION

A JWOWW Tingle is back! Great for those who loved JWOWW Mad Hot Tingle. Formulated with ATO Inhibitor to help prevent after-tan odors from developing.
