### PRODUCT STORY

Let’s pop the champagne and Celebrate! The Upgraded One and Done Complex will leave you with gorgeous color that everyone will notice. Help protect your skin from environmental stressors with 300 mg of CBD. ATO Inhibitors work to prevent after tan odors from developing while you’re out living it up. Make a toast with this Champagne Dreams fragrance that’s sure to last through the night. Celebrate the best of JWOWW!

“I always have something to Celebrate in life, so I'm raising a toast to family, friends, and my gorgeous tan! Xoxo”  
JWOWW – Jenni Farley

### COLOR TECHNOLOGY

**Upgraded One and Done Complex:** DHA and Erythrulose combine for continuous color development while Caramel gives you the immediate color right out of the bed. Annatto Extract and other melanin enhancers work together for noticeably darker color.

**Plateau Breaking Technology:** Formulated with a dose of DHA and Instant Bronzers, Celebrate was designed for experienced tanners to break a plateau for deeper color and take their tan to the next level.

### SKINCARE TECHNOLOGY

**300 mg CBD:** Known to provide powerful antioxidant benefits that can help minimize damage from free radicals for improved appearance and a more youthful complexion.

**Ink-Drink™ Complex:** Shea Butter, rich in Vitamins A & E, helps neutralize free radicals as well as softens and moisturizes the skin. Raspberry protects the brilliance of tattoos by reducing tattoo color damage, while Beeswax provides soothing and smoothing benefits.

**Blurring Technology:** Microspheres give the skin a silky feel and helps to provide a blurring effect by scattering light. This will help to diminish the appearance of fine lines and wrinkles.

**Caffeine:** With the highest Caffeine level in the JWOWW Line, skin will be toned and energized in no time. Say hello to a glowing and revitalized complexion!

**ATO Inhibitor:** Witch Hazel works to help prevent after tan odors from developing.

### AVAILABLE SIZES

10oz Bottle | .5oz Packette
