

Golden Shimmer Drops

When our shimmer is added to the spray solution, it produces a glowing effect. These drops are a wonderful addition to your custom spray tan services.

Selling point

Shimmer drops are a great customization to the client's tan for an increased quality of sunless experience. Shimmer's are especially popular during prom season, who needs a Victoria secret sparkle powder when you have sunless shimmer drops!

- ✓ Include in any spray tan solution, or distilled water to achieve a glowing look
- ✓ Add to those clients who will be on-the-go, post sunless treatment
- ✓ Great addition for special events, clients can receive their spray tan and come back the day of their event to receive the shimmer mixed with water
- ✓ Offer as an upsell service or offer complimentary to stand apart from your surrounding competition

How to use

- Produce a glowing effect by adding one full dropper of shimmer to solution or distilled water, prior to application.
