

Ultra-One Rapid Tan

The Ultra solution is a rapid-rinsing, alcohol based formula designed for those who do not want to wait the full 8 hours to shower.

Versatile color payoff [2 Hours – 6% 3 Hours- 9% 4 Hours – 12%]

How to use

- Great for on the go clients or those who have discomfort when wearing the standard solutions 6-8 hours.

Shower Time: 2-4 hours after application

Tan Longevity: 5-7 days with proper care

Recommended skin tone for this solution

Ultra-One Rapid Tan is designed to suit all skin types. Color development will be dependent on how long the client has worn the solution. To avoid over development, it is best to send a reminder text or call to your client to be sure they shower at the correct time. Ultra has 18% DHA, so if left on too long, your client could experience an extreme contrast between natural skin tone and spray tan, resulting in an uneven fade or an unnatural color.

Ingredient benefits

Vitamin C - provides potent antioxidant protection, shielding skin from damaging free radicals

Caramel and Walnut extract – provides the golden bronze color that accentuates any skin tone when the sunless solution is applied
