

Skin Firming Drops (formerly smooth & tone)

A cutting-edge formula designed to tone and tighten the skin. This spray tanning additive will attack cellulite where applied. (Formerly known as Slimming Drops)

Selling point

- ✓ Add customization to the client's tan for an increased quality of sunless experience
- ✓ Skin Firming Drops will help to temporarily tighten the skin, add for those who want to diminish the appearance of skin sagging or skin imperfections
- ✓ May be mixed with deionized water and applied to the skin when a bit of anti-aging is needed without the spray tan
- ✓ Pair with the Tan Extend Lotion for prolonged skin firming results. The Tan Extend lotion contains similar ingredients which will provide the skin firming benefits even longer

How to use

- Add two droppers full to every ounce of solution prior to application
- Results are temporary, Skin Firming benefits will wash away within the first showers. It is best to pair with the Tan Extend lotion or apply regularly for longer lasting results

Ingredient benefits

Maltodextrin- Active ingredient that aids in the penetration and effectiveness of other beneficial ingredients to increase their anti-aging properties

Caffeine Extract- Dehydrates fat cells making skin appear smoother and firm

Silica- Maintains the firmness of the skin making it smooth and taut

Glycerin- A natural humectant that draws in moisture from the air to penetrate the skin for a deeper hydration of the outermost layer of the skin
