

ADDITIVES

Get creative with services by customizing the session for each client using sunless additives. Discover, blend, and enjoy a unique balance of spray tan solution and additives to enhance your client's spray tan.

DHA BOOSTER

These 50% DHA Booster drops are formulated to give an extra boost of DHA to the solution of choice. Customize any solution, any time to achieve the perfect shade.

How to use: Add two full droppers for every 1 ounces of solution used to increase your color level by 1%.

Key Ingredients

Dihydroxyacetone – derived from sugar cane and sugar beets; reacts with the skins amino acids to produce pigment

DHA Booster Ingredients:

Water, Dihydroxyacetone, Phenoxyethanol, FD&C Red#40, FD&C Blue #1, FD&C Yellow #5.

When boosting more than 1-2%, we recommend mixing solutions for a more cost-effective alternative

SHIMMERS

The Shimmer additives provide a glowing effect to the skin. Choose from our Opalesscent and Golden formulas.

How to use: Add two full droppers of shimmer to every 1 ounce of solution. Add additional droppers for increased shimmer benefits.

Technicians can mix the Shimmer with distilled water for a shimmer only treatment. Apply as you would a spray tan.

Key Ingredients

Aloe Barbadosensis Leaf Extract – has been found to reverse degenerative skin changes by stimulating collagen and elastin synthesis. Acts as a biological vehicle to aid penetration and absorption of other bio-active ingredients into the skin.

Shimmer Ingredients:

Deionized Water, Aloe Vera Leaf Extract, Ethoxdiglycol, Glycerin, Butylene Glycol, Capryl Glycol, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Phenoxyethanol, Potassium Sorbate, Mica, Titanium Dioxide, Iron Oxides.

Shimmers are a temporary additive and will not last the duration of the tan. To prolong the glowing benefits, mix shimmer additive with a daily lotion for at home applications.

SCENTS

Unique scent blends mixed with an unscented solution will add a spa-like feel to any spray tan service. Choose from a range of scents including Pineapple, Orange-Ginger, and our seasonal scents.

How to use: Add one full dropper of Scent to every 1 ounce of solution. Add additional droppers for increased scent benefits.

Scent Ingredients:

Water, Fragrance.

Scents are a temporary additive and will not last the duration of the tan.

SKIN FIRMING

This cutting-edge formula is designed to tone and tighten the skin to provide a smoother and more firm skin appearance.

How to use: Add two full droppers of Skin Firm for every 1 ounce of solution.

Key Ingredients

Caffeine Extract – contains antioxidant properties, constricts blood vessels, and dehydrates fat cells making skin appear smoother. Studies show Caffeine to potentially promote and repair sun damage.

Glycerin – A natural humectant draws in moisture from the air to penetrate the skin for more in-depth hydration.

Maltodextrin – enhances the anti-aging activity of amino acids and fatty acids and aids in product penetration and effectiveness.

Skin Firming Ingredients:

Deionized Water, Aloe, Vera Leaf Extract, Ethoxdiglycol, Glycerin, Lecithin, Caffeine, Butcher broom Extract, Maltodextrin, Sicilia, TEA Hydroiodide, Ivy Extract, Carnitine, Escin, Butylene Glycol, Tripeptide 1, Xanthan Gum, Carrageenan, Capryl Glycol, Phenoxyethanol, Potassium Sorbate.

This additive provides a temporary tightening effect, it will not last the duration of the spray tan. Recommend the client use the Sjolie Tan Extend to improve longevity of the Skin Firming benefits.

ANTI-AGING

This formula aids in both the prevention and reduction of the skin's aging process by tightening wrinkles on the skin, giving a youthful, refreshing look.

How to use: Add two full droppers of Anti-Aging for every 1 ounce of solution.

Key Ingredients

Pisum Sativum – or pea extract, is an active ingredient helping protect against deterioration of the skin's proteins, the skin's natural aging process.

Niacinamide – an active skin-restoring ingredient offers multiple anti-aging benefits including an improved appearance of large pores, uneven skin tone, fine lines and skin dullness. Glycerin – A natural humectant draws in moisture from the air to penetrate the skin for more in-depth hydration.

Anti-Aging Ingredients:

Deionized Water, Aloe Vera Leaf Extract, Ethoxdiglycol, Glycerin, Lecithin, Inositol, Niacinamide, Butylene Glycol, Bambusa Vulgaris Extract, Pisum Sativum (Pea) Extract, Glucosamine HCL, Capryl Glycol, Phenoxethanol, Potassium Sorbate.

This additive provides a temporary tightening effect, it will not last the duration of the spray tan. Recommend the client use the Sjolie Tan Extend to improve longevity of the Skin Aging benefits.

RESTORE | CBD CONCENTRATE

Common skin conditions are known to affect a spray tan negatively; fight the odds and achieve a quality spray tan by utilizing the newest skin soother; Sjolie Restore CBD Concentrate.

How to use: Add one dropper full for every 2oz. of the solution. Increase dosage by one dropper full at a time for severe conditions or pain management.

Restore Concentrate is for topical use only, do not ingest.

Key Ingredients

CBD – when topically applied, CBD will penetrate through the pores and epidermis, absorb into the body to react with its natural cannabinoid receptors resulting in balanced skin and pain management

Aloe Vera – found to reverse degenerate skin conditions by stimulating collagen and elastin synthesis. It also acts as an aid in penetration & absorption of other bioactive ingredients

Vitamin C – aids in healing, promotes collagen production, and maintains healthy blood vessel walls to resist disease

Restore Ingredients:

CBD, Deionized purified water, Aloe Vera Leaf Extract, Glycerin, Potassium Sorbate, Sodium Benzoate, Collagen, Inositol, Acerbic acid (Vitamin C)

WHAT IS CBD?

Cannabidiol (CBD) affects the body's Endocannabinoid system (ECS); ECS is responsible for maintaining the body's equilibrium. ECS aids in the production of natural cannabinoid in the body, and impacts sleep, pain, immune response, hormones, mood, and appetite.

- All-Natural
- Does not contain THC
- Water-Soluble

WHY INCORPORATE CBD INTO YOUR SUNLESS TREATMENTS?

When applied topically, CBD will penetrate through the pores and epidermis, absorb into the body to react with its natural cannabinoid receptors ultimately resulting in balanced skin and pain management. CBD oils used topically rejuvenate & soothe the skin, noticeably relieving pain, rashes and irritation, reducing acne, reducing inflammation, hydrating the skin, plus it has antibacterial antioxidant and antimicrobial properties. The Restore CBD Contrate is ideal for anyone experiencing:

- Joint and muscle pain
- Inflammation
- Muscle spasms
- Dry or acne prone skin
- Redness or rosacea
- Eczema or Psoriasis

CBD Drops + Deionized Water = New Industry Service!

Our drops are not only meant for DHA based spray tans. Think about the opportunity to offer a CBD Spray Service to add to your menu. With the SJOLIE CBD Drops, you can create a new offering to your current client, but more importantly, you are now able to see potential customers that want nothing to do with getting a spray tan but want pain relief and the other amazing benefits of CBD.
