# Basic Balm

**Elevate your clients tan experience with the perfect Barrier Cream to stop tan development on hands, cuticles & dry areas!**

## DESCRIPTION:

Introducing our revolutionary Basic Balm, the ultimate solution for flawless tanning results. Designed to safeguard your palms, nails, and dry heels, this protective balm acts as a barrier, preventing unwanted DHA absorption in those areas. Elevate your tanning experience with our transformative Basic Balm and achieve a flawless, sun-kissed glow that lasts.

## HOW TO USE:

Simply apply the Basic Balm without rubbing it in, and after your tan application, effortlessly remove it with a paper towel. For a seamless and natural finish, gently blend any harsh lines with our signature Cactus and Agave lotion, ensuring a beautifully even tan that will leave you feeling radiant and confident.

When applying the balm to your clients hands, ensure they don't touch themselves anywhere to avoid areas on their body that will block the tan from developing. When applying the balm, explain to your client they are getting a hydrating hand treatment during their tan made up of natural & organic essential oils.

## INGREDIENTS:

Helianthus Annuus (Sunflower) Seed Oil\*, Prunus Armeniaca (Apricot) Kernel Oil\*\*, Vitis Vinifera (Grape) Seed Oil\*\*, Cocos Nucifera (Coconut) Oil\* Garcinia Indica (Kokum) Seed Butter\*\*, Euphorbia Cerifera (Candelilla) Wax\*\*\*, Simmondsia Chinensis (Jojoba) Seed Oil\*\*, Glycine Soja (Soybean) Oil\*\*, Styrax Benzoin Resin Extract\*\*\*, Tocopherol\*\*, Rosmarinus Officinalis (Rosemary) Leaf Extract\*\*, Aroma (Flavor)\*\*, Titanium Dioxide (CI 77891)\*\*\*.
