Bronzer Drops

Channel your inner Chemist for a truly customizable tan experience! Add 3-6 full droppers per 100 ml of Solution.

DESCRIPTION:

Introducing our game-changing customizable bronzer drops, a must-have for spray tan artists seeking to elevate their clients' experience. With these drops, you can effortlessly create a tailor-made tan without the hassle of purchasing multiple solutions. Available in Warm Brown, Olive, and Violet shades, achieving the perfect hue for every client has never been easier. Whether you need to cancel out brassy tones, yellow undertones, or red/pink and rosy hues, our bronzer drops offer a seamless solution, ensuring a flawless and personalized result every time.

HOW TO USE:

Bronzer drops can be used in Sunna's solution for a more dramatic look. Mix 3-6 full droppers in 100 ml of solution. Remember, bronzers do wash off after a shower or two.

Warm Brown - made for everyone. Takes away any brassy tones.

Violet - cancels out yellow tones (warm)

Olive - Olive cancels out red rosy skin tones.
