# Clear Express Rinse Natural Tanning Solution: Medium | Dark

**Our Clear solution is both a skin treatment and a tan! Perfect for clients that want no bronzer rub off on sheets and clothing and want to shower within 1-5 hours. Great for brides & men! Ultimate Hydration.**

## DESCRIPTION:

Perfect for all skin types, as the tan depth is controlled by when the client showers. Full colour results are visible 24 hours post tan. Ensure even application as there is no guide colour. Blending hands and feet is important. For lighter skin tones ensure you shower in 1-3 hours. Enriched with prickly pear extract which is rich in vitamins and minerals, hyaluronic acid and Aloe Vera leaf juice for a hydrating, fast drying and non-sticky feel.

## HOW TO USE:

After using our set me spray, coat the client with two light coats of clear solution and finish with Powder Me. With Clear Tan, clients MUST shower 1-5 hours after their tan. Your client will notice they will have very little to no colour after showering. They will darken over the next 24 hours. After using Clear ensure the client is extra careful with palms, and feet. Washing their palms during processing and applying lotion if needed is crucial as the tan will develop quickly in those areas. Clients should be careful to not get wet or touch themselves before showering. During their first shower, simply rinse and do not use body wash or shave.

## KEY INGREDIENTS:

Prickly Pear extract  
Hyaluronic acid  
Aloe vera leaf juice

## RINSE TIME:

1-5  
HRS

## INGREDIENTS:

Aqua\*\*, Dihydroxyacetone\*\*\*, Aloe Barbadensis Leaf Juice\*, Cucumis Sativus (Cucumber) Distillate Water\*\*, Glycerin\*\*, Hammamelis Virginiana (Witch Hazel) Water\*\*, Polysorbate 20, Dimethyl Isosorbide, Ethoxydiglycol, Hydrolyzed Jojoba Esters\*\*\*, Opuntia Tuna (Prickly Pear Cactus) Flower/Stem Extract\*\*, Sodium Hyaluronate\*\*\*, Ethanol\*\*\*, Benzyl Alcohol, Salicylic Acid, Sorbic Acid. \*Organic \*\* Natural \*\*\* Naturally Derived
