Exfoliating Mitt

The easiest way to exfoliate and keep your skin clean and ready for a sunless tan!

DESCRIPTION:

Introducing the SunnaTan Buff Me Exfoliating Mitt, the ultimate tool for achieving a flawless sunless tan. This must-have mitt effortlessly removes old tan while deeply exfoliating your skin, providing the perfect canvas for your sunless tan to adhere to. Say goodbye to dead skin cells and hello to irresistibly soft and smooth skin, ensuring a flawless and long-lasting tan every time. Elevate your tanning routine with the SunnaTan Exfoliating Mitt and experience the transformation of your skin for a radiant and flawless sunless tan like never before.

MADE OF:

80% Viscose, 20% polyester

HOW TO USE:

During the end of your shower, lightly wet your mitt and turn off the shower while you buff away dead skin cells in preparation for your sunless tan. Adjust the pressure based on your comfort level and use a circular motion. Tips & Tricks: Bathe/or shower for at least 5 minutes prior to use, it allows your skin to soften and make it easier to slough. Concentrate exfoliation on areas where sunless tan builds up like elbows, knees, arm pits and inner thighs. Moisturize those areas after with Hydrate Me after bathing. Not just for pre-tanning - Our Exfoliating mitt is great if you want to freshen up dry or tired skin. This mitt is also great for preventing in-grown hairs.
