# Hydrate Me Cactus Agave Lotion

**Our hydrating lotion is created for dry skin. It is Tan-Friendly and made to extend the longevity of your tan.**

## DESCRIPTION:

Let your skin soak up the nurturing, healing qualities of cactus, the soothing properties of agave, shea butter & aloe, with a revitalizing squeeze of vibrant, all-natural lemon & orange peel oil.

A note on the 'fragrance' used in this formulation - We are required to label the scent as 'fragrance' because it is a proprietary blend. The 'fragrance' in this formula is natural aromatic oils that are plant-based using pure essential oils and aromatic isolates derived solely from natural, raw botanical sources. It is certified to be free of synthetic ingredients. Instead of just using essential oils, these natural fragrance oils also use isolates that are created by isolating natural aromatic components from natural sources to be able to create more complex scents.

## KEY INGREDIENTS:

Shea Butter  
Prickly Pear Extract  
Sunflower Seed Oil

## HOW TO USE:

Use after self tanning or spray tanning or every day for healthy hydrated skin. If you are a spray artist you can also use this lotion for blending and on hands, feet, elbows and knees prior to spraying.
