Keep Me Sunkissed Face Tan Water

Add a warm, subtle glow to your face. Specially formulated for your facial skin packed with nourishing, anti-aging ingredients. Can be used daily or until results are achieved.

DESCRIPTION:

Experience the magic of fresh, glowing skin with a simple mist! A lightweight and gentle formula designed exclusively for your facial skin. Infused with nourishing and anti-aging ingredients like hyaluronic acid, witch hazel water, and red maple extract, with the alluring natural scent of vanilla fruit water, it leaves your skin hydrated, even-toned, and radiantly glowing, without any sticky residue. Keep Me Sunkissed is your key to a luminous and youthful looking complexion.

HOW TO USE:

Start by exfoliating your face to create a smooth canvas. Ensure that your skin is clean and free from makeup or lotion before applying. Using a makeup brush or cotton pad, mist the water on to the brush or pad and apply generously all over your face avoiding your hair. Allow the tan water to dry on your skin without rinsing. It is recommended to wait 6-8 hours before washing your face to allow the color to develop. For a deeper tan, repeat the application daily until your desired color is achieved. Once you've reached your desired tan, using the product twice weekly will help maintain the results.

RINSE TIME:

KEY INGREDIENTS:

Hyaluronic acid
Witch Hazel
