Powder Me Sprayer Drying Powder

Have your cake and eat it too with this naturally sweet scented after tan drying powder that's tale free.

DESCRIPTION:

Experience the enchanting shimmer of our Powder Me, the same luxurious powder used by SunnaTan Pro artists after your tan. Now, you can enjoy the radiance and sheen right at home! Made with natural ingredients and a delightful natural scent, Powder Me is perfect for giving your skin a beautiful glow before date night or after applying your favorite SunnaTan sunless tanning product. Not only does it provide a stunning shimmer, but it also acts as a protective barrier for those post-tan areas prone to sticking together. Elevate your glow game with Powder Me!

HOW TO USE:

Lightly dust the drying powder over your body, focusing on areas where they may feel sticky, such as the armpits, arm creases, under the bum, thighs and behind the legs.

Enjoy the refreshing and drying effect of the powder as it absorbs excess moisture, leaving the skin feeling comfortable and smooth. By following these steps, you can enhance the overall tanning experience and ensure a comfortable post-tan sensation for your clients.

INGREDIENTS:

Maranta Arundinacea (Arrowroot) Root Powder**, Tapioca Starch**, Silica**, Mica (CI 77019)**, Aroma (Flavor)**, Titanium Dioxide (CI 77891), Tin Oxide**, Iron Oxides (CI 77491)**, Polymethylsilsequioxane. *
