

sunna

# Smile Prep

**This miracle paste will have your mouth feeling fresh and pearly white, as if you just came from the dentist's chair.**

## DESCRIPTION:

Multi-action cleaners remove unsightly plaque and reduce tartar build up.

Smile Prep:

- Removes Stains and Plaque
- Immediate Whitening
- Sensitivity Free
- Used Weekly or before Whitening

## HOW TO USE:

Add a pea sized to your toothpaste for up to 5 days in a row initially. After, use as needed about 1-2 times a week and prior to each SunnaSmile whitening treatment. Post Whitening Treatment

Recommendations: Drink only water for the next hour after using SunnaSmile whitening products. For the next 24 hours after whitening, do not consume food or drink that are likely to cause stains. These include: blueberries, curries, beets, carrots, dark gravy, tomato sauces, red wine, coffee, tea, colas, etc.
