

DISINFECTION

Ready-to-use LUCASOL™ Wipes are a one-step cleaner, disinfectant and disposable cloth all-in-one product. LUCASOL™ Wipes have the highest available germ-killing power in the industry. They are hospital-grade and kill disease-causing single cell organisms including staph, strep, hepatitis-B, hepatitis-C, herpes and HIV. Helps stop the spread of contagious diseases. Dye and perfume free, each container of 160-count LUCASOL™ Wipes minimizes any possible allergic reaction to customers and employees.

INSTRUCTIONS FOR USE

Cleaning: Use one wipe to completely remove surface of all gross debris from surfaces to be treated.

Disinfecting: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet for 10 minutes for disinfection. A potable water rinse is required for surfaces in direct contact with food. For plastic and painted surfaces, spot test in an inconspicuous area before use. See product label for full cleaning and disinfection directions.
