

COCONUT WATER SELF TAN FOAM

COCONUT WATER BASE | 1 HR EXPRESS TAN

WORLD'S 1ST COCONUT WATER TAN

The world's first coconut water based tan is a one-of-a-kind bronzing treatment, supercharged with antioxidants to restore skin hydration. The weightless formula absorbs quickly to lock in moisture, while essential fatty acids found in natural coconut soothe dry areas and improve overall skin texture and tone. The boost in hydration replenishes the skin, making this 1 Hour Tan work as a natural moisturizer while delivering a fast, rich super dark brown skin finish.

HOW TO USE

For a streak-free self tan, apply to clean, exfoliated skin using our Bronze On Applicator Mitt. Allow a few minutes before putting on clothes. Use sparingly on elbows, knees and ankles. Wash hands after application.

Shower in 1 hour for a natural tan. Leave on longer, for a deeper darker skin finish. Rinse with lukewarm water only for 45 seconds. Do not use soap or scrubs. Following your first shower your tan will continue to deepen in color over the next 24 hours. Regular showering may be taken 8-16 hours after application.

RESULTS

An intensely hydrating skin therapy experience that instantly gives you a rich, super dark brown skin finish.

KEY INGREDIENTS

COCONUT WATER

KEY FEATURES

- ✓ Made with real coconut water
- ✓ Deeply hydrating
