Pro Tan®

Underarm Odor Defender Exclusively for Sunless Tanning

Roll-On Formula with Odor Neutralizing Ingredients

The first and only underarm deodorant with odor neutralizing ingredients designed exclusively for use during sunless tanning applications.

If you've been around fitness competitions you know that there is a definite need for this product. It allows the competitors to smell fresh without having white or discolored underarms on stage.

This delightfully scented formula helps assure a more even underarm tan while keeping you smelling fresh and clean throughout the day.

DIRECTIONS:

Apply directly to your armpits after showering and before your first self-tanning application.

Allow 2-3 minutes to dry before contact with clothes and one hour before initial self-tanning application.

Reapply one hour prior to final tanning application. Do not apply after final application.

NOTE:

Use 2-3 days consecutively prior to your initial sunless tanning application in place of your regular deodorant.

INGREDIENTS:

Aqua (Water/Eau), Alcohol Denat, (SD Alcohol 40-B), Parfum (Fragrance), Polysorbate 20, Dihydroxyacetone, Xanthan Gum, Benzyl Salicylate, Limonene, Linalool, Hydroxycitronellal, Citral, Coumarin, Citric Acid.
