Pro Tan®

Sunless Tan Remover Fast Acting Mousse Formula

Advanced Professional Formula

This advanced professional tanning formula gently and effectively removes stubborn, self-tan, without the need for abrasive scrubbing.

DIRECTIONS:

SHAKE WELL BEFORE USE. Pump Sunless Tan Remover Mousse into the palm of your hand. Apply liberally onto dry skin (avoiding eyes and mouth). Leave on your skin for at least 5 minutes. Using a wet cloth, gently wipe and rinse your tan away in a warm shower. For more stubborn areas or dry skin, use the Exfoliating Mitt to gently remove the tan. Once your skin is clean and exfoliated you are ready to reapply your fresh new tan.

INGREDIENTS:

Aqua (Water/Eau), Hydroxyethyl Urea, Ethoxydiglycol, Sodium Bicarbonate, Cocamidopropyl Betaine, Glycerin, Polysorbate 20, Phenoxyethanol, Parfum (Fragrance), Sodium Chloride, Benzyl Benzoate, Hexyl Cinnamal, Trisodium EDTA, Butylphenyl Methylpropional, Aloe Barbadosensis Leaf Juice, Linalool, Citronellol, Alpha-Isomethyl Ionone, Hydroxyisohexyl 3-Cyclohexene Carboxaldehyde, Limonene, Geraniol.
